- Swimming
- New technologies
- Mangas (entertainment)

CERTIFICATIONS

- Pix (Last Year of High School 340 pix)
- ANSSI MOOC

LANGUES

- French (native language)
- English (B1)
- Spanish (up to high school A2 level)

QUALITIES

- Teamwork
- Perseverance
- Dynamism
- Enthusiasm
- Communication

Student in BTS SIO (Cybersecurity and IT Services for Organizations) (SLAM), passionate about application development, I have been able to discover and practice programming through my school and personal projects. I want to continue learning and improving in IT to build my professional career.

MY PROFESSIONAL PROJECT

After my BTS SIO, I want to continue with a work-study Bachelor's degree in Computer Science (MIAGE or another specialized program) to immerse myself in complex projects and better understand business challenges.

Ultimately, I aim for a career as a Tech Lead, where I could manage teams and lead various projects.

PROJECTS COMPLETED

- BTS** Web applications in HTML / CSS (website to learn languages and develop our skills)
- Associative** HTML / CSS website in development
- Personal** HTML / CSS / PHP websites (forum (local), and websites to test functions)
Python projects (chess, snake, programs to test modules)
- NSI (Last Year of High School)** Web applications in HTML / CSS (history of computing, list of train stations in France...)
Python projects (mastermind, calculator...)
